Brandywine Workshop and Archives

Located on the Avenue of the Arts in Philadelphia, Pennsylvania

Job Title: Deputy Director of Programming

The Board of Directors of the Brandywine Workshop and Archives seek a Deputy Director of Programming. This is a unique opportunity to grow an organization with a strong reputation and deep commitment to artist development and the printmaking process.

About the Organization
Founded in 1972 by Allan Edmunds, the Brandywine Workshop and Archives (BWA) has grown from a group of successful artists, art professors and teachers supporting the production of limited edition original fine art prints, training and mentoring young artists, to an internationally known organization dedicated to professional development of artists and connecting communities across the world through the artistic practice and creative outcomes of printmaking.

Incorporated as a 501(c)(3) in 1974, BWA has a long history of artist residencies, exhibitions, and educational programming. A diversity-driven cultural organization that produces and shares art to connect and inspire, BWA builds bridges among global communities. Today, BWA has expanded its efforts to include not only original fine art prints, but artist documentaries, 16 satellite collections, and the creation of Artura.org - a free virtual database of culturally diverse art and artists. BWA is recognized for its education programs and for its work with both mainstream and under-represented communities.

About the Position
Reporting to the Executive Director, The Deputy Director of Programming is a new position that will be responsible for oversight of all curatorial and educational activities and serve as a primary point of contact for full-time, part-time, and contract staff. The Deputy Director of Programming will operate as senior management, acting as a key partner to the Executive Director in shaping BWA’s artistic vision and helping to develop the organizational structure to support it.

The Deputy Director of Programming will have a track record of organizational management as well as experience and passion for working with artists and arts educators. They will be responsible for maintaining current artistic and educational partnerships, while also developing new opportunities for collaboration locally, nationally, and internationally.
As part of its succession planning, BWA has identified this position as a developmental opportunity. The ideal candidate will have the opportunity for swift advancement into the Executive Director role – should the candidate be a good fit for the organization.

**Essential Functions & Responsibilities**
